

LGA - tested toner cartridges

The LGA, an impartially and independently working German group of companies for product certification, has been testing the emissions of laser printers and the contents of harmful substances of toner modules. Certified with the LGA-seal, these low-emission toner modules represent consumer-friendly products which protect the health of the user in the best way possible.

All KMP XXL toner cartridges are manufactured acc. to **DIN 33870I**

KMP has obtained the LGA certificate for following products:

Art. No.	compatible for	replaces
